Werkgelegenheid

Process Safety and beyond

Process safety, occupational
exposure and culture

Henk Koenders

Program manager Dangerous
Substances

The newspapers after a serious incident

The inspections of the government failed

But... who is responsible??

So who failed ?

What do we see during inspections?

Managementsystem

Reality

What do we see during inspections?

A reactive and calculative culture

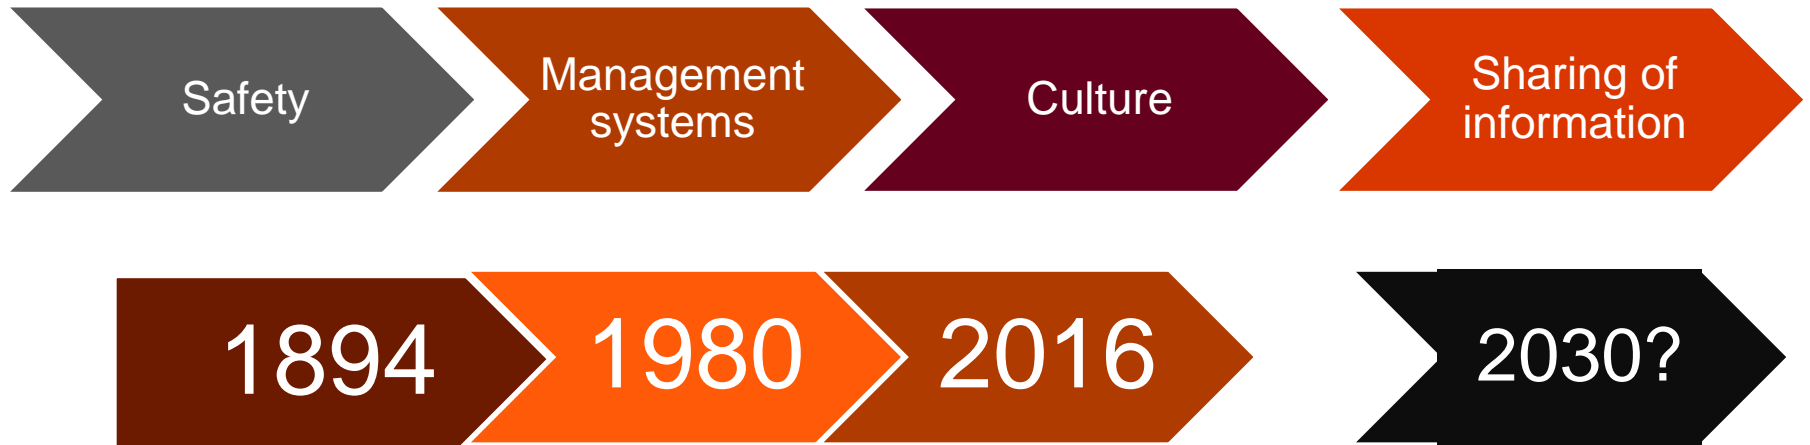

What do we see during inspections?

**Poor control of exposure to dangerous substances
90% violations**

The development of thinking about inspections and safety

The focus of the Labour Inspectorate in the Seveso inspections the coming years

- Is what the managementsystem describes visible on the workfloor?
- What is the culture in the company?
- How is exposure to dangerous substances handled? (road to zero)
- Intervention mix
