The seminar improves the process safety culture by networking and sharing of information. It is organised for the technical safety specialists and managers of companies that deal with hazardous chemical processes.

## KEY NOTE SPEAKERS:

**André Kuipers** has an impressive career as astronaut including a 6 month trip to ISS. Hear his space stories that are full of Safety Critical Equipment and Systems.

**Dr Hans-Peter Schildberg** (BASF) did fundamental research on detonations that resulted in interesting design learnings. He received the 2018 EPSC award for his advancements in Process Safety

**Dr Dirk Roosendans** (Total) obtained a PhD on the suppression of vapour cloud explosion using powders. This has great potential for risk reduction at e.g. refineries

**Gus Carroll** (Centrica) is process safety & technology director and holds a board position at the European Process Safety Centre: feel his leadership
