

Occupied Building Risk Assessment

Gerold Kort May 15th, 2019 **Open**

Thematic Risk Assessment:

Occupied Building Risk Assessment

or

OBRA

7 Occupied Building Risk Assessment | May 15th, 2019

VNCI guidelines is based on the following sources:

- Best practices (Dupont, Dow Benelux, Huntsman, Shell e.a.)
- 'Guidance for location and design of occupied buildings on chemical manufacturing sites'; Health and Safety Executive (HSE, UK); 2000.
- API Guidelines

VNCI Guidelines

- Not obligatory
- Nothing more than a guideline (based on best practices)

20 Occupied Building Risk Assessment | May 15th, 2019

OBRA Results

- 1. It tells you how (un)safe you are in buildings
- 2. It tells you what you need to be safe (measures).
- 3. Compliance with legislation
