## Sharing of practical learnings on technical safety aspects at operations with hazardous chemicals

### Key note speakers

Manfred Müller has been a pilot for 41 years, is specialized in aircraft safety and has led Lufthansa Flight Safety Research. Many of his aircraft safety findings are well applicable for the chemical industry, as will be revealed in his impressive lecture.

Pol Hoorelbeke (VP TotalEnergies) is widely recognized in the field of Process Safety, author of a book on the topic and chair of the board of the European Process Safety Centre. In Dordrecht he will share about the learnings of a refinery fire.
