Keynote Speakers

Fiona MacLeod is professor in Process Safety and teaching at the University of Sheffield. With a Cambridge Chemical Engineering background, she has improved many organizations on their safety performance. She visited the Bhopal site and will share about the legacy 40 years after the incident.

**Bhopal
1984**

Andy Brazier is a risk consultant for the major hazards industry and a specialist on human reliability and management systems. He will share about the learnings of the Flixborough disaster, that are still very valuable 50 years after the incident.

**Flixborough
1974**
